Olson Calls for Creation of Provisional Government**Corruption and Aftermath of Montana May Trigger Civil War**

Alanson, MI, June 1 - Norman Olson, Commander of the Northern Michigan Regional Militia, has announced his plans to seek to create a provisional/transition national government in order to avoid the anarchy resulting from the collapse of the present system.

In a press release from Militia Headquarters in Alanson, MI, Olson stated that millions of Americans are frustrated and angry and have nowhere to go. "The patriots of America don't trust the present government since it has alienated itself from those who gave it power. That power now is consolidating and is being used against the citizens. It is time to give Americans a choice. In short, the present system needs competition." Quoting James Madison, Olson said 'written in every American heart, and sealed with the blood of a host of American martyrs, is the principle that every man has a right to abolish an old government and establish a new one.' I propose to do just that. Without it, the nation may cease to exist."

Olson is working with associate Brian Necessary, outspoken commander of the North Carolina Volunteer Militia, to contact patriots and militia leaders around the country to begin to study the proposal. "Our method is to follow the ideas of those who defied the British government by forming the Continental Congress. Our idea is to elect delegates from counties, who will meet to elect a state delegate to a national meeting. At that meeting the delegates will create the new government with the common law court as its judicial branch and the militia to serve its executive branch and to provide protection." Olson stated that he expects stiff opposition, but said that Americans really have no choice. "It's either this or chaos, either this or slavery, either this or the loss of the union."

"The information super highway provides us with the ability to electronically gather together thousands of voices," said Olson, "We need not spend long hours in meetings. The committees of correspondence are already provided via the internet and the fax networks. The opportunity is before us, if we have the courage to step through the door."

Olson has been working on the plan to create a provisional government for several months. He says that the turmoil and retaliation following a bloodbath in Montana may trigger civil war and an effort by the present federal government to institute martial law. "I expect nationwide retaliation against the FBI if they slaughter the Freemen. There are thousands of patriots who have vowed that another Waco or Ruby Ridge would not go unanswered. It is quite clear that the FBI is operating illegally as agents of the Federal Reserve Corporation in violation of federal laws. Not only that, but the federal troops gathered on Montana soil are there in violation of Montana law which provides that only the Governor or the state legislature can call in a federal force. With the arrival of military vehicles and aircraft, the FBI is providing clear evidence that it is indeed a federal military force. We are at the point where the federal government can torture and kill citizens with impunity. I have said over and over that when justice is removed from the equation, the ancient dynamic of retribution, retaliation, and revenge will take their natural course. We are going to war. A provisional government will give the people an alternate-somewhere to go, something to hope in. If enough support the provisional government, we can sap the life from the present corrupt one. By doing so, perhaps we can even avoid a long bloody conflict."

Olson said that his plans include looking at the amendments to the US Constitution. Some will be scrapped. One that I will champion will be an amendment that establishes all citizen persons in the country as sovereigns under common law. No longer will people of color have to fight for their rights. Justice and righteousness will be established for all. That's what America is really all about."

End Press Release

Open Letter to All Patriot Leaders

Soon we will call the Third Continental Congress and a Continental Army will be established. The simple militia will then become a Federal Army of the new Provisional Government. The Republican Provisional Government will stand ready to fill the vacuum created after the fall of the present corrupt system.

I think that is the best thing we can do at this point. Some WILL say we are crazy and that the idea is ludicrous, but the same was said about George Washington and the boys 200 years ago, until they won....

Right now we have the Jural Societies and Common Law people joining together. On the other side we have the Militias joining together. These are in fact two of three branches of government. The third branch, the Legislative, has not begun to pull together with the Militia and the Common Law/Jural groups.

The Calling together of the Third Continental Congress will be the opportunity to turn the Politically minded people of the Patriot/Constitutional movement BACK TO US. There are thousands of Patriots out there wasting their time with lobbying, faxing, petitioning, writing, calling, and campaigning for people who will go into the present system and become tainted by it. We've seen it over and over.

Scripture says, "Come out from among them" If we come out, we must have somewhere to go. The Continental Congress will give these people a place to build a provisional government. Jesus also taught, "don't put new patches on old wineskins" Applied, this means that instead of trying to patch up this totally corrupted system, we simply replace it with our own.

The key is NOT TO REFORM government with new everything. We already have the Constitution and that must remain untouched. We have the facilities and the infrastructure, why build again? No, what we want to do is BLEED THE PRESENT SYSTEM DRY, thus destroying it non-violently. It may bring confrontation because it did in the 1770s when the British went to arrest the delegates to the 1st and 2nd Continental Congress.

You see, the present system is doomed. It will soon self-destruct. The Bible tells us that the Promised Land was filled with the heathen. God told Israel to go in and clear them out. Moses and Joshua both reminded the people that "when you live in their houses, draw water from their wells, pick grapes from their vines, and grow crops in their cleared fields, DON'T FORGET WHO GAVE IT TO YOU." Here is the lesson. We don't REFORM, we CLEAN OUT. We the People WANT our Buildings and our Property. The invaders have taken possession. To war or overthrow the government through war will mean mass destruction and possibly turning the American people against us. But, if we follow the soldiers adage "Don't get in the way of your enemy if he's marching into the sea," we will take a minute and realize that the present system is dying. Let's help it along.

Soon a vacuum will be created when The Primary Government of the Land is instituted. The Third Continental Congress (like those before it) will have to decide whether to continue to write, petition, remonstrate, and plead with the "Crown," or to Declare its Independence of the Present Government. This does not mean that we will become anarchists, it means that we will become better citizens by adhering to the Constitution and the best courts that provide the best justice. And our "army" will not be a standing army, but the militia of the people, willing to stand in defense of the government the Founding Fathers dreamed of.

Folks, the Third Continental Congress is a continuance of the First and the Second. We face the same tyrant. The same choices are before us as were before the Founders. We can find our place exactly in their history. I believe this course is just and my vision is one of possibility.

One note. The jural people and the Militia will not participate in the Third Continental Congress. The Congress is for the Legislative body, the delegates of the states. The militia WILL provide the protection for the delegates, just as it was in the 1770s and the Jural will supply the leadership of lawful men to guide in what is just and fair.

The task before us is to read, read, read. Read everything you can about the First and Second Continental Congress. Read of the reasons WHY they came together. Read of the matters they discussed. Read how they debated over continued redress of grievances or a declaration of their independence. Read of the struggles and read of the human failings of those men.

Then go back and consider our options. Will we continue to war against this present system, or do we have a better option that God will bless? I believe that we have the opportunity to avoid a long and bloody war. Yes, there will probably be a struggle, but if our government is purer, and nobler, and more just than the present one, perhaps people will consider that we do have a better product. And folks, that's what the current monopoly/trust needs, a good dose of competition. Let's give it to them!

Kind Regards,
Norm Olson
